

EShib Ecosystem

!! New EShib Ecosystem token Launch !!

!! Congratulations #EShibArmy!!

Today we celebrate 4 months since our birth!

During these 4 months, we have been looking for solutions to give more security and support to our project.

For that we have decided to launch our own Ecosystem Token.

➤ What is our ecosystem for?

As you all know, we are receiving a small percentage of \$EShib tokens with each transaction.

With the new tokens we will receive another small part in BNB, commissions that will be used for marketing, repurchase of \$EShib tokens, Charity, Creation of liquidity in Pancakeswap (by pairing with the \$EShib tokens that we have in possession), listing on large platforms CEX, etc.

In this way we will prevent the team from selling \$EShib and thus continue to increase the price of our token.

The new \$EShib Ecosystem gives a new opportunity to the entire community to start from the starting point of the launch of a new token and get good benefits during its trajectory.

The next step will be the creation of our own EShibSwap platform, in order to add value and utility to our ecosystem.

Ecosystem Wallets

The wallets that will receive the tokenomics are:
